

Power Max is a concentrated formula of powerful bacteria & enzymes designed to naturally break down organic matter & eliminate odors in drain lines, traps, disposals & holding tanks. Use **Power Max** as a one time drain opener & a daily maintainer to ensure that plumbing systems remain free of clogs & odors. **Power Max** is completely safe, natural & 100% biodegradable.

DIRECTIONS

SHAKE WELL BEFORE USE. For quicker results, mix **Power Max** with warm water. Be patient! The longer a bacteriological product is allowed to work, the better the results will be. This product will not work on inorganic material such as plastic, rubber or metal.

Clogged Drains, Disposals & Toilets

Add 6-8 oz. of **Power Max** directly to drain or toilet bowl and follow with 8-12 oz. of warm water, if possible. Let stand for up to 8 hours. For heavy blockage, it may be necessary to add an additional dose of **Power Max** & let stand for a longer period of time.

Odor Control in Garbage Disposals & Drains

After the final use of the day, pour 3-4 oz. of **Power Max** into the drain & follow with 3-4 oz. of warm water. Turn disposal on momentarily. Let stand overnight.

Grease Traps

For best results, start treatment after pump-out. For every 50 gals. of capacity, mix 8-10 oz. **Power Max** with 1 gal. warm water & pour into trap or closest drain. Maintain daily with a 1-2 oz. treatment.

Septic Tanks (1500 gal. capacity)

To recharge system, pour 1 qt. down the drain furthest from tank & flush with 1-2 gals. warm water. For normal system maintenance, treat monthly with 4-6 oz.

Plumbing System Maintenance

To prevent clog & odor problems, add 1-2 oz. **Power Max** every 30 days to all sinks, tubs, showers & toilets.

RV's & Boats

Add 2 oz. for every 40 gals. of tank capacity to both gray & black water holding tanks. Follow with 1 gal. of water.

Ingredients: Non-pathogenic bacteria, enzymes, natural surfactants & wintergreen fragrance.

Caution: Avoid freezing. Store in a cool place. Wash hands thoroughly after each use. Avoid contact with open sores or eyes. **Keep out of reach of children.**
