

MICRO POWER is a specially formulated mixture of bacteria, enzymes & natural detergents that is designed to clean & deodorize, while at the same time enhancing bacterial activity in holding tanks, septic systems & their related plumbing.

DIRECTIONS

SHAKE WELL BEFORE USE. Do not use with sanitizers, disinfectants, bleach, chlorine or formaldehyde. Doing so will neutralize the bacteria.

TOILETS, TUBS, SINKS, SHOWERS, FIXTURES ETC.

To clean and deodorize, simply spray down area, scrub or wipe clean & rinse with fresh water.

Floors

Spray down area & wipe clean. Let dry. For light surface cleaning on large areas, mix with 3 parts water, mop down area & let dry. Discard mop water in toilet or drain to enhance bacterial activity in pipes & holding tanks.

Countertops

Spray down area & scrub or wipe clean. For cleaning & odor removal in grout & other porous surfaces, scrub & allow excess to soak in before wiping clean. As with any cleaner, always rinse food preparation surfaces thoroughly before using.

COMPATIBLE PRODUCTS

Since **MICRO POWER** is a bacterial enzyme formula, it is compatible with other bacterial or enzyme-only products. By taking this synergistic approach to your RV cleaning & maintenance needs, not only are you using environmentally safe products that clean exceptionally well, but they also enhance the tank treatment process. berg products containing formaldehyde, chlorine, disinfectants or bleach will kill the friendly bacteria & hinder the treatment process.

The Organic Power Cleaning System:

PURE POWER - Waste Digester & Deodorizer for RV's & Boats

SUPER BIO-TABS - Digester & Deodorizer in Tablet Form

SENSOR POWER - Super Concentrated Cleaner for Sensors

CAUTION: Do not freeze. Store in a cool place. Do not contaminate food or food surfaces. Wash hands thoroughly after each use. Do not allow contact with open cuts, sores or eyes.

KEEP OUT OF REACH OF CHILDREN.
